### **2015 – Today Freelance Full Stack Web Developer, Upwork.com**

Working as a full-time freelance web developer since June 2015. With more than 10,600 working hours, I am a "Top Rated Freelancer" on UpWork. This gave me more exposure to brush up my skills in all directions and become a full stack developer. In this time span, I have handled different projects from all over the globe. My responsibilities include project planning, designing, development, unit testing and deployment. Also, making a flowless communication is an integral part of my work.
